Service & Maintenance Programs

Optimize your vehicles safety, performance & longevity

dynamicspecialty.com

Worry-free ownership

Dynamic Specialty Vehicles Ltd. takes the worry out of bus ownership with two maintenance programs designed to keep your vehicle on the road for years to come.

The services included in these programs are required on your bus to ensure that new vehicle warranties remain valid and existing buses remain as "new" as possible. Although these services are available through alternate sources, our programs are designed to **eliminate the inconvenience associated with taking your bus to multiple shops for all the different services it requires.**

We recognize that your time is valuable and that many providers of specialized transportation services may not have dedicated repair personnel or service facilities.

Preventative Maintenance Program

Four times a year we pick up your vehicle and bring it to our service bay where it's thoroughly inspected and serviced. Catching minor repairs before they become major problems saving you money and minimizing downtime.

package includes

- keeping you up to date with scheduled maintenance and advising you of any additional necessary repairs
- every 3 months; lube, oil and filter, top up of: brake fluid, power steering fluid, automatic transmission fluid, anti-freeze and labour
- semi annual commercial vehicle inspection (CVIP)
- wheelchair lift service (if applicable)
- **pick-up and drop-off of your vehicle (from Abbotsford to Horseshoe Bay)**
- **full interior and exterior cleaning**

\$2,682
per year*

*based on quarterly servicing for gasoline powered vehicles
