**Dynamic Specialty Vehicles Ltd.**

## School Bus Service & Maintenance

**Optimize your school bus safety,  
performance & longevity**

## Worry-free Ownership

**Dynamic Specialty Vehicles Ltd.** takes the worry out of bus ownership with a maintenance program designed to keep your vehicle on the road for years to come.

The services included in this program are required on your bus to ensure that new vehicle warranties remain valid and existing school buses remain as "new" as possible. Although these services are available through alternate sources, our program is designed to eliminate the inconvenience associated with taking your bus to multiple shops for all the different services it requires.

## Meeting Your Needs

Our dedicated parts and service team is committed to Total Customer Care for any public school, private or preschool or operator providing transportation to students or clients.

We recognize that your time is valuable and that many providers of specialized transportation services may not have dedicated repair personnel or service facilities.

We are a one-stop source for professional, dependable service. We maintain an extensive inventory of parts to ensure that the one you need is ready when you need it.
